# EZA Reports:
Student Mastery Zone

This report provides information regarding the overall mastery for individual students summarized by standard or strand on the assessment.

A Select which school, teacher, and student to view.

B Aggregate assessment data is provided here.

C¹⁻² Select report type:

C¹ Standards:
x-axis: code of standard; **y-axis**: percent correct for each standard based on the student.

C² Strands:
x-axis: strand abbreviation; **y-axis**: percent correct for each strand based on the student.

D¹⁻⁴ Hide and/or show school, district-wide, and Expected (ELS) mastery.

D¹ Student: the student's average percent correct mastery for standard or strand

D² School: school wide average percent correct mastery for standard or strand

D³ District: district wide average percent correct mastery for standard or strand

D⁴ Expected (ELS): The expected (ELS) average provides an expected average percent correct for the student based on the student's baseline PL (displayed in the header information). The expected average is available at the standard and strand levels as well as for the test overall.

EZA Reports:
Student Mastery Zone

E **Mastery Zone:** The green lines at 60% and 80% provide a frame of reference for educators to gauge content mastery for standards and strands for each student.
